SUMMARY

I am a passionate front-end developer with 3 years of experience as a full-stack developer. I have focused on front-end development for the past 2 years, finding great satisfaction in working in teams and improving my skills. I possess strong soft skills such as creativity and the ability to build interpersonal relationships. In my free time, I dedicate myself to learning in the field of front-end, developing new projects, and staying updated on current trends. I am an avid reader of personal growth books and an enthusiastic runner. I am ready to apply my experience and skills as a front-end developer to contribute to the success of exciting projects.

EDUCATION

React Academy

Oct.-Nov. 2023

Job Select, remote

I attended a React Academy of 74 hours where I deepened my knowledge of React. The topics covered included React Fundamentals, Real World Projects, React Deep Dive, and State Management. Through this training, I gained a comprehensive understanding of React development, including building simple applications, working on real-world projects, organizing scalable projects, and effectively managing state in React applications. Master in front-end development

Jan. 2022 – Sept. 2023

Start2impact, remote

Completed a comprehensive web development course focused on HTML, CSS, JavaScript, and advanced React concepts. Acquired skills in creating responsive web pages, implementing dynamic functionality, and building efficient web applications. Received personalized guidance from tutors, gaining practical experience through projects. Enhanced front-end development proficiency and continuously strive for improvement.

Bachelor's Degree in Computer Science

2015–2020

Verona

I have acquired substantial knowledge through my coursework in algorithms, programming, language compilers, and databases. Additionally, I have gained practical experience by actively participating in small team projects. Although I did not complete my degree, these experiences have provided me with valuable skills and a deep understanding of core concepts in computer science. My ability to apply this knowledge in real-world scenarios demonstrates my dedication and adaptability as a software developer.

High School Diploma in Computer Science

2009 – 2014

Verona

WORK EXPERIENCE

Full-Stack Developer

Feb. 2020 – Present

Archiva, Villafranca di Verona (VR)

Worked in 3 diverse teams, gaining valuable experience in different collaborative environments. In the first team, focused on Spring and Java, handling bug-fixing and developing new features for existing applications. Implemented a warehouse management application using ASP, C#, HTML, and CSS in the second team. Since early 2022, primarily focused on front-end development in the web team, implementing features and addressing bug-fixes. Collaborated with back-end developers to develop web applications. Proficient in HTML, CSS, JavaScript, and React. Utilized Git for version control and BitBucket for repository hosting. Strong teamwork, adaptability, and a consistent track record of delivering high-quality front-end solutions.

ICT Developer

Jun. 2018 – Jan. 2020

Archiva, Villafranca di Verona (VR)

Experienced in teamworking, I have successfully managed the development of ETL/DWH/BI applications. Proficient in designing, developing, and distributing applications for mission-critical systems. Skilled in using Informatica Data Transformation Studio and Altova MapForce to map various data sources (xml files, flat files, csv, edifact) to data warehouse tables. Possess a basic knowledge of SQL Server, Oracle, DB2, and MariaDB for SQL programming. Adhered to best practices in data management and achieved project success in critical environments.
